

LDAPCon 2015 CFP

Title

The Open Source Identity Ecosystem

Type

5-Minute Lightning Talk

Abstract

The Open Source Identity Ecosystem is a marketplace where solution providers, integrators and customers align to build Identity and Access Management solutions. This talk will have a look at the charter and mission of the group. We'll also talk about what comes next and how to join.

Outline

1. Open Source Identity Ecosystem Defined
2. Group Charter
3. Mission Statement
4. Next Steps
5. How to join

Speakers

Extend invitations to other ecosystem participants to contribute to this talk.

Biography

System Architect at Symas. Member of the OpenLDAP Engineering Team. Apache Directory PMC.
